December 10, 1964

To His Excellency, Governor Tim Babcock  
and Members of the Thirty-Ninth Legislative Assembly  
of the State of Montana:

In compliance with the duty imposed upon the Board by Section 84-708 (18) of the Revised Codes of Montana of 1947, the Montana State Board of Equalization herewith submits its Biennial Report for the period July 1, 1962 to June 30, 1964.

### **STATE BOARD OF EQUALIZATION.**

Dan Fulton, Chairman

John C. Alley

J. Morley Cooper

To His Excellency, Governor Tim Babcock and Members of the Thirty-Ninth Legislative Assembly:

Gentlemen:

The past biennium has been one of outstanding progress in the work and organization of the State Board of Equalization. Good management practice dictates that more efficient use of personnel and improved administrative control be a constant goal. The State Board of Equalization, in conformance to this dictate, has streamlined its organization by consolidating several departments on functional lines; thus reducing the number of supervisors or directors reporting and responsible to the Board, and improving the overall efficiency of the organization and its personnel.

The head of each department has been given the title of Director and is responsible directly to the Board. The Director of Income and Corporation License Tax Department now has charge of what previously was the Corporation License Tax Department, the Income Tax Department and the Withholding Tax Department. The Gasoline Tax Department, Special Fuels Tax Department and Gasoline Refund Department have been consolidated into a new Gasoline and Fuels Tax Department.

Rearrangement of some of our office locations has greatly expedited our work. The Gasoline Refund Department has been moved from the Capitol Building to the Mitchell Building. This puts it adjacent to the rest of the combined new Gasoline and Fuels Tax Department and also has made it possible to develop a much more functional arrangement of our offices in the Capitol Building. The three members of the Board now have adjacent offices. Our top secretarial people are in adjacent offices whereas they formerly were handicapped by being located in scattered offices. Our Legal Department has been moved from the Mitchell Building to an office adjacent to the offices of the Board members.

These changes have greatly improved our efficiency. Clear-cut channels of communication within the Departments as well as between the Departments and the Board are vitally necessary to good administration. The results have been highly gratifying.

We have made a special effort to handle income tax refunds expeditiously, and although we are still not completely satisfied in this regard we have been successful in handling them in less time than previously, in spite of the greater number of returns. Refunds of income tax are now automatically made whenever our audit indicates an overpayment of \$5.00 or more. Previously it had been the practice not to make refunds of overpayments unless the taxpayer discovered the overpayment and made application for the refund. Similarly, gasoline tax refunds are handled more promptly by not holding them up for what are obviously minor technical oversights of no particular importance made in preparation of refund applications. There were a few unfortunate incidents relative to gasoline tax refunds arising from a misunderstanding of the change in the law made by the last Legislative Session which increased from 8 months to 12 months the time from date of invoice within which application for refund must be made. Since these incidents resulted from the change, they will not recur.

Very real progress has been made in attaining greater uniformity of classification, appraisal and assessment of all classes of real property. Montana has had a classification law ever since 1919, which made it the duty of the State Board of Equalization to provide a uniform method of classifying lands for the purpose of securing a uniform basis of assessment for taxation of real property. In spite of the law and for a variety of reasons, no significant progress was made in attaining this uniformity of assessment until the past two years.

In the current year approximately 40 counties of the State are using substantially uniform classifications, appraisals and values for real estate and improvements. Most of the other counties are using some part of these uniform classes and values.

As we all know, there are still problems in this area. In something as involved as this, it perhaps is unavoidable to have some amount of confusion and dissatisfaction, as well as a large degree of realization that the modern high level of property taxation along with school and welfare equalization programs makes uniformity of assessment a practical necessity.

House Joint Resolution No. 21 of the 1963 Legislative Session directed this Board to "report its recommendations for legislation or amendments of existing law necessary to secure the uniform and permanent implementation of the property tax equalization program." In compliance we will make recommendations of specific legislation to the appropriate committees of the 29th Legislative Assembly.

Statistical tables are the main body of this report. These list county as well as State totals of assessed values of each kind of property. Also listed are the taxes levied against the properties. Since this data is generally self-explanatory we will not comment on it here. The State Board welcomes the opportunity to discuss with State officials or legislators any phase of the problems relating to taxation at any time.

### CORPORATION LICENSE TAX

In compliance with the State Board's recommendations the federal tax was eliminated as a deduction by the 1959 Legislature. This has resulted in additional corporations being required to pay in excess of the minimum filing fee.

	1962	1961
Total taxpaying corporations	6,742	6,750
Those paying only minimum fee	3,432	4,098
Number of small business corporations	1,061	1,176
Total revenue collected	\$4,723,213	\$5,051,048
Deficiency audits	\$ 69,339	\$ 107,099

Effective with taxable years ending on and after 12-31-60 tax rate on corporation decreased from 5% to 4½%. 75% of corporation tax is credited to the General Fund.

**INDIVIDUAL INCOME TAX**

In the individual income tax division some amendments to the present statutes are in order and should be considered at the 1965 Legislative session.

	1963	1964
Net Collections for Fiscal Year	\$13,934,211	\$14,691,498
75% of these collections are credited to the State General Fund.		

**INHERITANCE TAX**

Inheritance tax collections were:

For fiscal year ending June 30, 1963	\$2,074,455.39
For fiscal year ending June 30, 1964	2,263,048.30

**TOTAL**

Cases filed during biennium	11,875
Cases closed during biennium	9,174

All inheritance tax collections are transferred to the State General Fund.

**CHAIN STORE LICENSE TAX**

The chain store license statute requires a graduated license fee on all stores doing business within Montana. Under amendments effected by the 1955 Legislature, operators of establishments of this nature who fail to renew their license by March 1st of each year are penalized by being assessed double the original fee. New stores opening for business after September 1st of any calendar year need not apply for license until January 1st of the succeeding year. All collections are for the State General Fund.

**STORE LICENSE TAX FEES:**

Wholesale Store—Each Store	\$ 38.00
----------------------------	----------

**Retail Mercantile Establishments**

One Store	\$ 5.50
Second Store	\$ 50.50
Third Store	\$ 100.50

**CHAIN STORE LICENSE TAXES:**

Fiscal year 1962-1963	\$185,754.50
Licenses Issued for Period	11,884
Fiscal year 1963-1964	\$182,052.50
Licenses Issued for Period	11,546

**CIGARETTE LICENSE TAX**

Chapter 56, Title 84 R.C.M. 1947, requires that each dealer in cigarettes, whether wholesale or retail, obtain a license from the Board of Equalization before any sales are made. These licenses are permanent during the life of the firm to which issued unless revoked by the Board. License must be returned for cancellation if cigarette sales are discontinued.

A cash bonus for Montana World War II Veterans was provided for by Initiative No. 54 above the original requirements of Chapter 56. The funds thus accrued to be financed by an additional per cigarette package tax of 2¢ above the original requirements of Chapter 56. The funds thus accrued to be credited to the World War II Veterans Compensation Fund.

The 1957 Legislature amended Initiative Measure No. 54 to provide for an Honorarium payment to Montana Veterans of the Korean War. This to be financed by another additional 1¢ tax per cigarette package. Funds so collected to be credited to the War Veterans Compensation Korean Fund.

Chapter 222, 1957 Session Laws provided for an excise tax of 5¢ per cigarette package. Funds so collected are subject to an 8% discount to dealers, the remainder to be credited to the State General Fund. No discount allowable on funds collected for the War Veterans Compensation Fund.

Chapter 270, 1963 Session Laws further amended Initiative Measure No. 54 to provide for an honorarium payment to Montana veterans of World War I, this to be financed by the continuation of the existing tax previously levied.

**GASOLINE PRICES**

In compliance with Chapter 137, Session Laws of 1957, we have listed gasoline prices as quoted in 55 cities across the nation. Column one is the tank wagon, or so-called wholesale price to the retail outlets or ordinary bulk users. Column two combines this price, with the local dealer markup to complete the retail price less tax. Column three is the combined federal and state tax applicable for each state. Column four is the sum total of the above which provides the price for the product ready for retail delivery.

Following are 1963 averages for 55 cities in cents per gallon, computed from first-of-the-month prices, as compiled by The Gasoline Retailer. State and/or local sales tax at Buffalo, New York, Atlanta, Jackson, Chicago, and Detroit is not included in prices. Prices are for regular-grade (house-brand) gasoline. U. S. average for 1950 and prior years are based on reports from 50 cities.

**SUMMARY OF ACTIVITIES**

Space allows for only a general summary of the duties and activities of the Board of Equalization. They fall into four general fields.

- (1) Administration and supervision of all state tax laws.
- (2) Equalization as required in Section 15, Article 12, Montana Constitution.
- (3) Assessment of all intercounty property such as railroads, power lines, pipelines, airlines, and telephone lines. Also the assessment of net proceeds of mines and oil production.
- (4) Assessment and collection of inheritance, income, and many license taxes.

Taxable value of all property assessed by the State Board approximates 25% of the entire state taxable valuation. Sixty-one such assessments must be made and total assessed value amounted to \$468,831,010. These intercounty properties assessed by the Board are:

Railroads	7	Pipelines	10
Power Lines	3	Airlines	4
Telephone Lines	5	R. E. A.	23
Telegraph Lines	1	R. T. A.	8

License taxes administered by the Board are:

### TELEGRAPH LICENSE TAX

Under the provisions of Title 84, Chapter 25, Revised Codes of Montana, 1947 a license tax of two per cent of intrastate income is imposed upon the operators of telegraph lines for the privilege of engaging in such business. One company reported under this Act, and paid taxes which amounted to a total of \$690.60 during the fiscal year ended June 30, 1963, and \$592.10 during the fiscal year ended June 30, 1964.

### TELEPHONE LICENSE TAX

A license tax of  $1\frac{1}{2}\%$  on all gross income, less \$250.00 per calendar quarter, is required by Chapter 213, Session Laws 1957 on revenue received from all telephone business conducted within State whether by individual, partnership, corporation, or co-operative association. Some smaller telephone companies are exempt from the tax because gross income does not exceed the quarterly allowance.

Taxes are due quarterly and credited to the State General Fund.

### Taxation of Mines

At the time of the constitutional convention, in 1889, Montana's only industries worthy of mention were metal mining and stock raising, with mining greatly predominant. Because of the peculiar character of mining property, and in recognition, perhaps, of the practical impossibility of intelligently valuing our fissure vein mines, the delegates to that convention wrote into the constitution the "net proceeds clause" providing a special method for the assessment of such property. Under this provision and subsequent legislation, mines are assessed by the county assessors at the price paid the Government therefor, and on improvements and machinery of all kinds. If the surface ground has a separate and independent value for some other purpose it is assessed at its full value for such other purpose. Net proceeds are assessed by the State Board of Equalization, such assessment being based on verified statements filed with the board by the producers and certified to the counties in which the mines are situated. The taxable value of the assessment at the price paid the Government (\$2.50 to \$20.00 per acre) and of the net proceeds assessment is 100% of the full and true value. The taxable value of the machinery, structures and appurtenances is 30% of full and true value. These assessments all take the regular levies applicable to the taxing district in which the property is located.

Coal mines, oil properties, lime rock, gypsum and other quarries and mines producing precious and semi-precious gems or stones, or any other valuable mineral or minerals, all come within the provisions of the net proceeds law and are assessed as outlined above.

### Royalties

Oil and gas royalties are assessed in the name of the operator who is jointly liable with the royalty owner for the payment of the tax. The tax is payable by the operator, who may withhold an estimated amount so paid from current royalty payments. Other royalties are assessed direct to the royalty owner. Each royalty is valued at the amount received by the owner, and is assigned to Class 1, taxable at 100%.

### Mines License Tax

In addition to the taxes paid on the assessments listed above, coal mine operators are required to pay direct to the state treasurer a license tax of five cents per ton on all coal mined in excess of 50,000 tons annually; oil producers pay 2 $\frac{1}{2}$ % of the value on the first 450 barrels of all oil produced and 2 $\frac{1}{2}$ % on the balance of production; cement manufacturers pay four cents per barrel; plaster manufacturers pay five cents per ton, and metal mines operators pay annually a tax based on the market value of the metals produced. Coal, oil, cement, and plaster license taxes are treated more fully in another part of this report.

### Metal Mines License Tax

The amount of metal mines license tax is determined by the State Board of Equalization from verified reports filed by the metal producers, and in this connection the board has authority to examine the books of smelters and reduction works if it deems such examination necessary or advisable. The first \$100,000 of gross production in each year is tax exempt; the next \$150,000 or portion thereof pays a tax of  $\frac{1}{2}$  of 1%; the next \$150,000 or portion thereof pays a tax of  $\frac{3}{4}$  of 1%; the next \$100,000 or portion thereof pays a tax of 1%, and all over \$500,000 pays a tax of 1 $\frac{1}{4}$ %.

In arriving at the market value of the metals, average quotations in Engineering and Mining Journal are used as a base, and from these average prices, the Montana value is determined. The same average prices govern all assessments. The amount payable by the metal producers in 1963 was \$813,174. In 1964 the amount payable is \$701,213. All of this revenue is credited to the general fund of the state.

**TITLE 84, CHAPTER 3, REVISED CODES OF 1947 AS AMENDED BY CHAPTER 178, LAWS OF 1951,  
CHAPTER 88, LAWS OF 1957, CHAPTER 103, LAWS OF 1961 AND CHAPTER 239, LAWS OF 1961.  
CLASSIFICATION OF TAXABLE PROPERTY**

84-301. (1999) CLASSIFICATION OF PROPERTY FOR TAXATION. For the purpose of taxation the taxable property in the state shall be classified as follows:

Class One. The annual net proceeds of all mines and mining claims, after deducting only the expenses specified and allowed by section 84-5403; also where the right to enter upon land, to explore or prospect, or dig for oil, gas, coal or mineral is reserved in land by any person or corporation, the surface title to which has passed to another, the assessor and the state and county boards of equalization shall determine the value of the right to enter upon said tract of land for the purpose of digging, exploring, or prospecting for gas, oil, coal or minerals, and the same shall be placed in this classification for the purpose of taxation.

Class Two. All household goods and furniture, including clocks, musical instruments, sewing machines, wearing apparel of members of the family, and all personal property actually used by the owner for personal and domestic purposes, or for the furnishing or equipment of the family residence; all agricultural and other tools, implements and machinery, gas and other engines and boilers, threshing machines and outfitts used therewith, automobiles, motor trucks and other power-driven cars, vehicles of all kinds, boats and all water craft, harness, saddlery and robes.

Class Three. Livestock, poultry and the unprocessed products of both; stocks of merchandise of all sorts, together with furniture and fixtures used therewith; and all office or hotel furniture and fixtures.

Class Four. All land, town and city lots, with improvements, and all trailers affixed to land owned, leased, or under contract of purchase by the trailer owner, manufacturing and mining machinery, fixtures and supplies, except as otherwise provided by the constitution of Montana, and except as such property may be included in Class Five or Class Seven.

Class Five. (a) All moneys and credits, secured or unsecured, including all state, county, school district and other municipal bonds, warrants and securities, without any deduction or offset; provided, however, that the terms "moneys and credits" as herein used shall not embrace the moneyed capital employed in the banking business by any banking corporation or individual in this state.

(b) All poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by co-operative rural electrical and co-operative rural telephone associations organized under the laws of Montana.

(c) All unprocessed agricultural products either on the farm or in storage, irrespective of whether said products are owned by the elevator, warehouse or flour mill owner or company storing the same, or any other person whomsoever, and excepting livestock and poultry and the unprocessed products of both.

Class Six. Property formerly included in this class is now classified by section 84-308 of the Revised Codes of Montana, 1947.

Class Seven. All new industrial property. New industrial property shall mean any new industrial plant, including land, buildings, machinery and fixtures which, in the determination of the state board of equalization, is used by a new industry during the first three (3) years of operation not having been assessed prior to July 1, 1961 within the state of Montana. New industry shall mean any person, corporation, firm, partnership, association, or other group which establishes a new plant or plants in this state for the operation of a new industrial endeavor, as distinguished from a mere expansion, reorganization, or merger of an existing industry or industries. Provided, however, that new industrial property shall be limited to industries that manufacture, mill, mine, produce, process or fabricate materials, or do similar work in which capital and labor are employed and in which materials unserviceable in their natural state are extracted, processed or made fit for use or are substantially altered or treated so as to create commercial products or materials; and in no event shall the term new industrial property be included to mean property used by retail or wholesale merchants, commercial services of any type, agriculture, trades, or professions. And provided further, that new industrial property shall not be included to mean property which is used or employed in any industrial plant which has been in operation in this state for three (3) years or longer. Any person, corporation, firm, partnership, association or other group seeking to qualify its property for inclusion in this class shall make application to the state board of equalization in such manner and form as may be required by said board.

Class Eight. All property not included in the seven preceding classes.

84-302. (2000) BASIS FOR IMPOSITION OF TAXES. As a basis for the imposition of taxes upon the different classes of property specified in the preceding section, a percentage of the true and full value of the property of each class shall be taken as follows:

- Class 1. One hundred per cent of its true and full value.
- Class 2. Twenty per cent of its true and full value.
- Class 3. Thirty-three and one-third per cent of its true and full value.
- Class 4. Thirty per cent of its true and full value.
- Class 5. Seven per cent of its true and full value.
- Class 6. Forty per cent of its true and full value.
- Class 7. Seven per cent of its true and full value.
- Class 8. Forty per cent of its true and full value.
